

Hidden Maui: With Lanai & Molokai

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.
(Prof. Loyce Runolfsson Jr.)

Ulysses Press, 1996. Soft cover. Book Condition: New. Book Description: Forget Polynesian paralysis! This expanded, updated edition of Hidden Maui offers so many new opportunities for adventure that readers will jump out of those poolside lounges, grab their gear, and head out looking for excitement. Noted Hawaii travel expert Ray Riegert shows the way to every inch of the Valley Isle's 120 miles of shoreline. He points out beaches where the sand is white, black, salt-and-pepper, green, even garnet. Then Hidden Maui plunges into the waves - describing the best way to enjoy the island's great watersports, from sea kayaking to whale watching. Land adventures are covered in just as much detail, including biking trips down Haleakala volcano, hikes through the bird-rich Kanaha Pond wildlife sanctuary and spelunking journeys through ancient volcanic caves and over frozen lava waterfalls near Hana. Hidden Maui reveals unique lodging and dining options too, including the quaint wooden Nona Lani cottages and the old-style bamboo-deco Kihata restaurant, where local Paia residents enjoy budget-priced Japanese food. The author also devotes separate chapters to the lesser-known Maui County islands of Molokai and Lanai. --This text refers to an out of print or unavailable edition of this title. Ingram: The author of Hidden Hawaii draws from his countless trips to the island of Maui to reveal an ever-enchanting "hidden" locale. While the book covers hotels, restaurants, shops, and night spots, it also offers advice on shell-hunting techniques, whale-watching spots, as well as detailed coverage of beaches and parks, camping and hiking. Illustrations & maps. --This text refers to an out of print or unavailable edition of this title.
