

Modern Engineering Graphics

Filesize: 7.79 MB

Reviews

*Merely no words and phrases to describe. I really could comprehend almost everything using this created e pdf. Your daily life period will be change once you full reading this ebook.
(Mr. Ladarius Stoltenberg)*

MODERN ENGINEERING GRAPHICS

To download **Modern Engineering Graphics** eBook, make sure you access the web link under and save the document or gain access to other information which might be relevant to MODERN ENGINEERING GRAPHICS book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: Machinery Pub. Date :2008-10-26. This material is classified as the Ministry of Education general higher education Eleventh Five-Year national planning materials. The materials will be Engineering Drawing. computer-aided design. Industrial Design. Mechanical innovative design and other organic related courses together. formed a three-dimensional design of the main line. set graphics. design. aesthetics. innovation as one of the new curriculum. The material is divided into the design of modern engineering science (engineering drawing part). and modern engineering design graphics (SolidEdge three-dimensional graphic design some of) two. Modern Engineering Design Graphics (engineering drawing part) of the main elements are: the geometry of the projection and three-dimensional modeling. isometric drawings. basic knowledge of drawing. assembly modeling and projection. the shape of objects commonly used expression. standard parts and common parts . part drawings and three-dimensional modeling. assembly and create a mold assembly. parts of the mapping. This material can be used as engineering colleges. vocational technical colleges and adult education. engineering graphics course materials. also for the engineering and technical officers. Supporting materials with the book Modern engineering design problems learning set for readers to use. Contents: Preface Chapter 1 Introduction Section I Section II of the nature and task of learning the course Section IV projection method based on a common project of several projection V expressions of industrial product design geometry chapter section and three-dimensional modeling of projection geometry and three-view three-dimensional modeling of the formation of II and III projection rules of basic geometric elements of the projection geometry of the fourth three-view isometric Chapter V of the basics of drawing Section II drawing mechanical drawing national standards of basic skillsFour Satisfaction guaranteed,or money back.
